

Cotton Bales

Cotton · HS 5201

Machine-pressed cotton bales in MCU-5, Shankar-6 and DCH-32 varieties, graded for staple length, micronaire and strength, and shipped from Akola through JNPT to spinning mills worldwide.

Specifications

Varieties	MCU-5, Shankar-6, DCH-32
Staple length	25–32 mm
Micronaire	3.5–4.9
Fibre strength	22–30 g/tex
Trash content	Below 4%
Moisture	Below 8.5%
Bale weight	About 170 kg (standard Indian bale)

Packaging and minimum order

Standard pressed bales of about 170 kg, wrapped and strapped for container loading. Bale marking to buyer specification. Minimum order is one 20-foot container unless agreed otherwise.

Applications

- Ring and open-end spinning mills
- Yarn and fabric manufacturing
- Medical and hygiene cotton processing

Quality and documents

Each lot is sampled at sourcing and again before loading. Shipments travel with commercial invoice, packing list, bill of lading, certificate of origin, phytosanitary certificate, fumigation certificate and the relevant test report. Pre-shipment inspection by a third party can be arranged.
